The Council on Environmental Quality formulates and recommends national policies to promote the improvement of the quality of the environment.

The Council on Environmental Quality (CEQ) was established within the Executive Office of the President by the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*). The Environmental Quality Improvement Act of 1970 (42 U.S.C. 4371 *et seq.*) established the Office of Environmental Quality (OEQ) to provide professional and administrative support for the Council. The Council and OEQ are collectively referred to as the Council on Environmental Quality, and the CEQ Chair, who is appointed by the President and confirmed by the Senate, serves as the Director of OEQ.

The Council develops policies which bring into productive harmony the Nation's social, economic, and environmental priorities, with the goal of improving the quality of Federal decisionmaking. As required by NEPA, CEQ evaluates, coordinates, and mediates Federal activities; advises and assists the President on both national and international environmental policy matters. In addition, it oversees Federal agency and department implementation of NEPA.
